Relectronic-Remech Inc. will focus on feasibility, minimizing costs and downtime for the insurers and insured.

Senior Project Managers at Relectronic-Remech Inc. will consult on equipment losses to determine extent of damages, reparability and values, including replacement or ACV. Large losses are unique - from the type of equipment involved, to where it was manufactured, and how much water and smoke damage has occurred.

Relectronic-Remech Inc. consultants provide valuable assessment of damaged equipment, including “like-kind-and-quality” replacement costs and damage analysis. Verification and inventory items are provided and a full review of service and billing will be included in a clear, concise and unbiased report.

Our consultants have the expertise to handle any size loss, from a restaurant to an assembly plant. We will oversee all loss recovery projects to completion, from consulting to recovery of all major equipment and electronics.

All commercial grade RESTAURANT equipment is one of our specialties.

Water, fire or a lightning strike causes damage to your policy holders’ home or business and disrupts the daily routine.

A restoration claims has many facets including water damage, drying out electronics, de-odorizing equipment affected by soot and tracking down power surges. We competently evaluate each piece for restoration or replacement.

Our loss recovery service includes:

- Providing on-site assessments and preliminary reports to mitigate damages to equipment
- Co-ordinating the recovery process with all adjusters, policyholders, service vendors and contractors
- Complete recommendations for values and replacement cost

Our goal is to restore equipment in a timely, cost-effective manner.
